# Editorul TinyMCE > Setări generale > Fără auto-link

The screenshot displays the Mount Orange LMS interface. At the top, there is a navigation bar with 'Mount Orange', 'Home', 'Dashboard', and 'My courses'. On the right, there are icons for search, notifications, a user profile, and an 'Edit mode' toggle. The main content area is titled 'Content' and shows 'Page content' with a red warning icon. The TinyMCE editor is open, displaying a document titled 'Module 3: Lifestyle Factors'. The document contains two main sections: '3.1: Diet, Sleep, and Physical Activity (video)' and '3.2: Managing Stress and Mindfulness Practices'. The '3.1' section has a blue highlight. A tooltip with a red exclamation mark and the text 'No auto-link' is visible over the editor's toolbar, indicating that the 'auto-link' feature is disabled. The bottom of the editor shows 'ul > li > p' and '229 words'.

tool\_mfa | lockout

# Administrare autenticare > reCAPTCHA

Enable reCAPTCHA for login  
enableloginrecaptcha

Yes  Default: No 

Add a visual/audio confirmation form element to the login page. This reduces the risk of unwarranted login attempts. See [Google reCAPTCHA](#) for more details.

ReCAPTCHA site key  
recaptchaapikey

Default: Empty

String of characters (site key) used to display the reCAPTCHA element in the signup form and site support form. ReCAPTCHA keys can be obtained from [Google reCAPTCHA](#).

ReCAPTCHA secret key  
recaptchaprivatekey

Default: Empty

String of characters (secret key) used to communicate between your Moodle server and the recaptcha server. ReCAPTCHA keys can be obtained from [Google reCAPTCHA](#).
